Flutter Mobile Developer with 2+ years of experience building production apps with BLoC/Cubit and Clean Architecture, with 9 apps published on Google Play and the App Store. Owns mobile development end to end, from architecture and automated testing to CI/CD, crash monitoring, and store release. Also builds backend and AI services in Python.

EXPERIENCE

PT Budhi Futura Incesca — South Jakarta Aug 2025 – Present

Mobile Developer & AI Fullstack Engineer

- Built and shipped **Kosmogram Nusantara** ([Google Play](#) · [App Store](#)), a 6-calendar cultural app, as sole mobile engineer: 9 releases in 9 months, 24 modules, backed by a GitLab CI/CD and fastlane pipeline (300 automated tests).
- Built **Obrol Sandi** ([Google Play](#) · [App Store](#)), an AI chatbot app, from scratch: streaming chat, guest access, file uploads.
- Contributed to Obrol Sandi's web frontend (React, TypeScript), including AI chat UX for the model's thinking-state during translation.
- Built **Batik Lens** (FastAPI, PyTorch), a batik motif recognition service; built a 5-source dataset and fine-tuned the model, raising accuracy from 40% to 92% across 44 motifs.
- Built internal data tooling: a Kotlin/Frida crawler extracting search results from a third-party app, and a PDF/book upload pipeline (Go, OCR) that turns books into cited entries in the company's data platform.

PT Paragon Technology and Innovation — South Jakarta Nov 2025 – May 2026

Mobile Engineer Intern (Kemnaker-certified program)

- Delivered 85 agile story points across 8 core modules of **Nova** ([Google Play](#) · [App Store](#)), a Flutter and native Android super app for frontline workers that reached an 89.95% customer satisfaction score.
- Built reusable components for PARADISE, the internal Flutter design system, and shipped fixes with unit and widget tests.

Freelance — Remote Jan 2026 – Mar 2026

Mobile Developer (Flutter, Firebase)

- Built and published 4 inclusive-education apps for university research clients: [Swarana](#) (sign-language 3D translator), [GeoCulturAR](#) and [Insani](#) (AR learning for children with special needs), and [HistoMathic](#) (AR geometry education).

PT Muti Jaya Sejahtera — Remote Mar 2025 – May 2025

Mobile App Developer

- Built attendance and catering booking features for [DOKAR](#), an HR app used by 100+ employees; fixed runtime memory issues.

Mobile Innovation Laboratory — Bandung Oct 2024 – Mar 2025

Mentor and PIC, Flutter Class

- Coordinated 30+ mentors and lab assistants, authored 3 Flutter modules, and mentored 20+ interns to a 98% task completion rate.

Earlier (2024): Mobile Developer Intern, PT Suitmedia Kreasi Indonesia — 3 Flutter apps incl. [Teman Muslim](#), engagement +30%.
Mobile Developer, PT PLN (Persero) Pusharlis UP2W IV — 17-page inventory dashboard, ~55% efficiency gain.

SKILLS

Mobile	Flutter, Dart, BLoC/Cubit, GetX, Clean Architecture, REST API integration, Kotlin, Jetpack Compose, SwiftUI, home widgets, Live Activities, in-app purchase, AdMob
Backend and ML	Python, FastAPI, PyTorch, Hugging Face, REST API, PostgreSQL, MySQL, React, TypeScript
Platform and Delivery	Firebase (Analytics, Crashlytics, FCM, Remote Config), GitLab CI/CD, fastlane, Docker, App Store Connect, Play Console
Testing	Unit, widget, and integration tests with bloc_test, mocktail, and pytest
AI-Assisted Dev	Claude Code as daily driver, agentic workflows, custom skills, multi-step automation

EDUCATION

Telkom University — Bachelor of Informatics, GPA 3.82/4.00 Sep 2021 – Jun 2025

Thesis: [System Code Generation Based on Large Language Model Fine-tuning with QLoRA](#), published IEEE.

CERTIFICATIONS

2026	Kemnaker Graduate Internship Program — PT Paragon Technology and Innovation
2024	Flutter & Firebase Feature-Rich Chat App — Udemy, 54.5 hours · GDSC Solution Challenge 2024
2023	Digistar Class 2023 — Telkom Indonesia, score 91.23
2022	Responsive Web Design — freeCodeCamp, 300 hours
